# Projects

## 1. TaskTastic

- Designed and coded a website listing daily tasks, including groceries, with the ability to mark tasks as complete.

## 2. Test Score App

- Developed a website for calculating scores and summarizing scores for entered names.

## 3. Bunny Project

- Designed and coded a website about pet rabbits using HTML, CSS, and JavaScript.
- Provided facts about rabbits and guidance on how to care for them.

## 4. Bunny Slideshow

- Created a website with a slideshow feature using JavaScript, HTML, and CSS.

## 5. Tadpole Metamorphose

- The project focused on transforming tadpoles into frogs by clicking a button and providing relevant facts.

## 6. Mad Lip

- Designed a fun game allowing users to input words into placeholders, generating and displaying amusing results.

## 7. Stopwatch

- Developed a stopwatch using JavaScript, HTML, and CSS with hour, minute, and second features.

## 8. Tax Calculator

- Created a project allowing users to input product prices and tax percentages, calculating the total with tax.

## Hobbies/Interests

- Crochet
- Photography
- Gaming
- Hiking
- Travel

## Volunteer Work

### Keep Music Alive

- Contributed to Keep Music Alive, guiding children in a petting zoo concept focusing on introducing diverse musical instruments from around the world.
